

# Yeti cheat sheet, for Steven

Draft Thursday, September 17 | 6 teams | 14 rounds is a planning default

**Captains cost a real pick.** Keane must take himself in round 1. Your round and the other captains' rounds must be negotiated. Mark them **Agreed** in Draft setup.

## Set the order before the first pick

|                   |                 |                      |                  |                 |                        |
|-------------------|-----------------|----------------------|------------------|-----------------|------------------------|
| 1 Devils<br>Emile | 2 Kings<br>Alex | 3 Flyers<br>Philippe | 4 Yeti<br>Steven | 5 Hawks<br>Adam | 6 Keane / New<br>Keane |
|-------------------|-----------------|----------------------|------------------|-----------------|------------------------|

**Provisional order only:** Draft setup > use the up/down arrows. Saves automatically.  
**If you are slot 4:** 4, 9, 16, 21, 28, 33, 40, 45, 52, 57, 64, 69, 76, 81.

## Your target group

| Player              | Last draft | PTS / GP |
|---------------------|------------|----------|
| Chris OT (Ong Tone) | R1         | 52 / 27  |
| David Toledano (DT) | R6         | 41 / 30  |
| Peter McAlear       | R4         | No stats |
| Tom McAlear         | R9         | 36 / 32  |
| Matt McAlear        | R11        | 15 / 23  |
| Dan McAlear         | R13        | 23 / 23  |

Last year's rounds are history, **not deadlines**. Keep OT, DT, Peter, Tom, Matt and Dan starred. DT means David Toledano here.

## On your turn

- Check the captain round.** Your self-pick takes the whole turn.
- Check the next OPEN pick.** At slot 4, a round-2 self-pick uses #9. From #4, your next chance at a teammate is #16.
- Compare value and waiting risk.** Prioritize this group adds urgency for targets likely to go before that turn. The percentage is an estimate.
- Record the actual pick.** Use Draft player / Draft myself. Undo fixes a mistake; Save backup protects the live board.

## Other options if a target is gone

Skaters: Larose, Smith, Cottingham, Lucas Clarke, Chris Angelini, Konrad Horner-Borsu, Romary and Viens. Compare whoever is still available; the paper list cannot track live picks.

## Captain rounds to agree
